

We Can't Wait for Housing!

Our efforts to end homelessness and ensure all Illinoisans have safe, affordable housing are being *put at risk by devastating cuts to Illinois' safety net*. The \$13 billion budget shortfall next year means even more drastic cuts are coming, unless a solution is found. *We need a real budget solution like HB174* — a plan to fairly raise the revenue Illinois needs to stop cuts and fully fund essential services like *homeless prevention, emergency shelters, and supportive housing*.
