Request for Consumer Assistance for Participation in Plan 2.0 Community Planning Charrette

The Chicago Alliance to End Homelessness, in collaboration with the City of Chicago, is facilitating a public process for creating version two of Chicago's Plan to End Homelessness. One of our top priorities is to be as inclusive of as many stakeholders as possible including people who are currently or formerly homeless. **To facilitate consumer participation, the Chicago Alliance is offering single day CTA cards and lunch to consumers who participate in our community planning charrette.**

On January 24 and 25, as part of charrette week, we will be hosting expert fishbowl sessions on a variety of issues impacting Chicago's homeless system. During the fishbowls, national and local experts will engage in a dialogue that encourages thinking of new systemic and programmatic responses to ending homelessness in their particular area. Once the panel has completed its discussion, the community will react and provide their input on the issue area. A detailed schedule of the fishbowl sessions is available online at www.thechicagoalliance.org.

In order for consumers to be eligible for assistance, this form must be submitted by **Friday, January 13**. Completed forms can be e-mailed to naming@thechicagoalliance.org. Resources are limited, so please be judicious in requesting assistance. Agencies that can provide their own transportation and/or lunch would be appreciated.
